Step back in time and learn how the County Antrim town of Carrickfergus played a hugely significant role during the Second World War with stories of the people who saw Carrickfergus as their "home" either as a resident, worker or member of the British, American or Belgian Armies.

Adrian, your enthusiastic and knowledgeable guide, will take you back to that time, regaling you with tales of what life during wartime was like in Carrickfergus.

Find out how the 1941 Belfast Blitz impacted on the town, why a former British Army camp was key to the formation of an elite US Army unit, what a linen mill started producing for the war effort, and where "servicemen under sentence" found themselves locked up. A Step Back in Time

Arthur Cottage & Interpretative Centre

Arthur Cottage is the ancestral home of Chester Alan Arthur, the 21st President of the United States of America. Enter this carefully restored cottage and be transported to a bygone era as you discover how the Arthur family lived and worked their farm in the late 18th Century.

Arthur Cottage and Interpretative Centre,
21A Dreen Road, Cullybackey BT42 1EB

Visitors will be welcomed to the cottage by a period dressed tour guide. You will have the opportunity to experience spinning to produce wool for knitting or soda bread and/or potato bread being made and cooked over the open fire, before learning how to 'harn' bread, to understand how baking and cooking was carried out many years ago. You'll even get the chance to sample some tasty bakes!

Take time to explore the interpretative centre to trace the Arthur family links from a rural village in Northern Ireland to the White House. Examine farm implements, their use on the land, the significance of farming and also discover the connection with Ulster-Scots and its relevance to the cottage. Learn about Chester Alan Arthur and how he introduced Tiffany's of New York to the White House or be surprised at his involvement in the building of the Brooklyn Bridge and other key events that occurred during his reign as president.

Before you finish your visit dander through the apple orchard and depending on the season pick fruit to be used for baking in the cottage or check out the pretty willow sculpture. Visitors can collect turf at the cottage door and add to the fire. Guides will offer stories and folklore by the fire while spinning or baking.

Andrew Jackson Cottage & US Rangers Museum

Andrew Jackson Cottage and US Rangers Museum,
2 Boneybefore, Carrickfergus BT38 7EQ

Andrew Jackson Cottage

This restored thatched cottage highlights Carrickfergus' strong American and Ulster-Scots connections, as local guides tell the story of Andrew Jackson, the 7th President of the USA, whose parents emigrated to America from Carrickfergus in 1765.

Sit by the turf fire and hear from knowledgeable local guides about rural life and how the Jackson family worked the land to provide food and income before emigrating and the progression that young Andrew made through his career to become a president.

US Rangers Museum

Beside the cottage is a museum dedicated to the US Rangers, the elite American army regiment formed at Sunnylands Camp in Carrickfergus in June 1942.

The US Rangers trained in extreme conditions and fought in some of the deadliest battles in Europe to become one of WWII's most courageous and decorated units. It remains the only US military unit ever founded on foreign soil.

Today the museum contains visually striking displays, never seen before artefacts and photographs, as well as impressive uniforms and compelling film footage. The museum aims to be a fitting tribute to the men who volunteered their services to this elite fighting force, in Carrickfergus and beyond.
